Summary

Full-Stack Web Developer with a background in school psychology. Most recently, received a Full Stack Development Certificate from the University of Central Florida. Highly motivated with strengths in problem-solving and collaborating in team settings. Strong organizational skills and much experience working under strict deadlines and fast-paced environment. Always willing to help others in order to reach the team's collaborative goal.

Technical Skills

Front End: HTML, CSS, Bootstrap, Materialize, Handlebars

Back End/Server: Node.js

Databases: Firebase, MySQL, MongoDB

Languages: JavaScript

Libraries: jQuery, Express, React.js, Python

Projects

Word Guess Game | GitHub Repo: <https://github.com/mcb85/Word-Guess-Game>

Deployed Project: <https://mcb85.github.io/Word-Guess-Game/>

This is a Word Guess Game with a Friends (TV show) theme. The user enters letters one at a time to guess the word. The user receives one point if they guess the word correctly before the allowed time runs out.

Technologies used include JavaScript and Bootstrap.

Train Scheduler | GitHub Repo: <https://github.com/mcb85/Train-Scheduler>

Deployed Project: <https://mcb85.github.io/Train-Scheduler/>

This app allows the user to input initial train data (name, destination, frequency, and the first train departure time) and receive a calculation of when the next train will arrive and how many minutes away it is.

Technologies used include JavaScript and Firebase.

Friend Finder | GitHub Repo: <https://github.com/mcb85/FriendFinder>

Deployed Project: <https://secure-meadow-24027.herokuapp.com/>

This app provides the user with the means to find a compatible "friend". The user rates a series of questions on a scale from 1 - 5. Based on their responses, the app then finds a match for the user.

Technologies used include JavaScript, Node.js, and the Express npm package.

Full Spectrum | GitHub Repo: <https://github.com/mcb85/Project-2> |

Deployed Project: <https://fullspectrum1.herokuapp.com/>

The Full Spectrum app creates a forum for families of children with Autism Spectrum Disorder. Users have the ability to create blog posts, access events, calendar, and resources. Technologies used include Passport & JSON Web Token, Node & Express, Express-Handlebars, MySQL & Sequelize, and Full Calendar.

Work Experience

School Psychologist

August 2012-Present

Seminole County Public Schools, Sanford, FL

Exceptional Student Support Services

District school psychologist serving elementary school. Responsible for completing evaluations to determine eligibility for special education services, as well as gifted services. Also served majority of district (elementary, middle, and high) for bilingual special education/gifted evaluations. Engaged in consultation with parents, teachers, and administrators. Completed evaluation reports and presented results in meetings with parents and staff. Collaborated in a team setting to problem-solve and determine interventions and services for students.

- Lead Bilingual School Psychologist (Spanish)
